**DETAILED ACTION**

***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-80 and 93-164, are drawn to an entrance-exchange structure comprising a scrip; and a game of uncertain outcome adapted to be played by a player using a specialized exchange system, classified in class 463, subclass 1.
- II. Claims 81-92, are drawn to virtual currency system, classified in class 463, subclass 25.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, Invention I has a separate utility such as for managing the entrance and exchange rates between different vendors and running the operations of a casino or vendor; and Invention II has separate utility such as a virtual currency system which provides a substitute monetary system. Invention I can be used to play any game of chance and manage different types of casino vendors but does not require the specifics of the virtual currency system of Invention II to be used. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classifications, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

A telephone call was made to Jack Friedman on 9/26/05 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
